

LEGEND

- gas pipeline / spur (dashed)
- 380 kV OHL with towers
- state road / access road
- coast / barge route / CW
- third party / bridges
- temporary construction area
- tie-in point TP-xx

TSO 380 kV SUBSTATION 'KIYI'

EXISTING 36" GAS TRANSMISSION LINE (network operator)

TAP VALVE STATION (Owner)

380 kV DOUBLE-CIRCUIT OHL (Owner) 7.0 km

16" GAS SPUR (Owner) 4.5 km

BRIDGE 120 t

STATE ROAD (heavy transport route from the east, 120 t bridges)

BRIDGE 120 t

ACCESS ROAD 1.2 km

VILLAGE (nearest receptor, 900 m)

TP-E1

TP-G1

ALPILLA SITE (12 ha) - see ALP-OWN-DWG-002

CEMENT TERMINAL

HEAVY-LIFT BARGE ROUTE from port (18 km by sea)

CW intake 650 m / outfall 350 m offshore

SEA OF MARMARA

0 500 1000 1500 2000 m

NOTES

- Potable water DN150, 34.5 kV construction power and telecom fibre run along the access road to the north gate (Owner scope, ALP-OWN-GEN-001 section 5).
- Routes are indicative; final alignments by the Owner's pipeline and line contractors.
- Site layout, temporary construction area and all tie-in points: ALP-OWN-DWG-002.

OWNER	Alpilla Enerji Uretim A.S. (fictional)
PROJECT	Alpilla 600 MW CCGT
TITLE	EXTERNAL CONNECTIONS - GAS, GRID, ROAD, WATER
DWG NO / REV	ALP-OWN-DWG-001 Rev 0
COORDINATES	plant grid (m); routes indicative
SCALE	1:25,000 on A3
DATE / STATUS	2026-09-27 issued for contract
NOTE	CASE STUDY - fictional
