

Engineering progress curve - 2237 documents, 212,424 h (step at NTP: 180 tender-stage documents, 10,697 h; supplier documents at their VDRL dates) - levelled to the discipline capacities

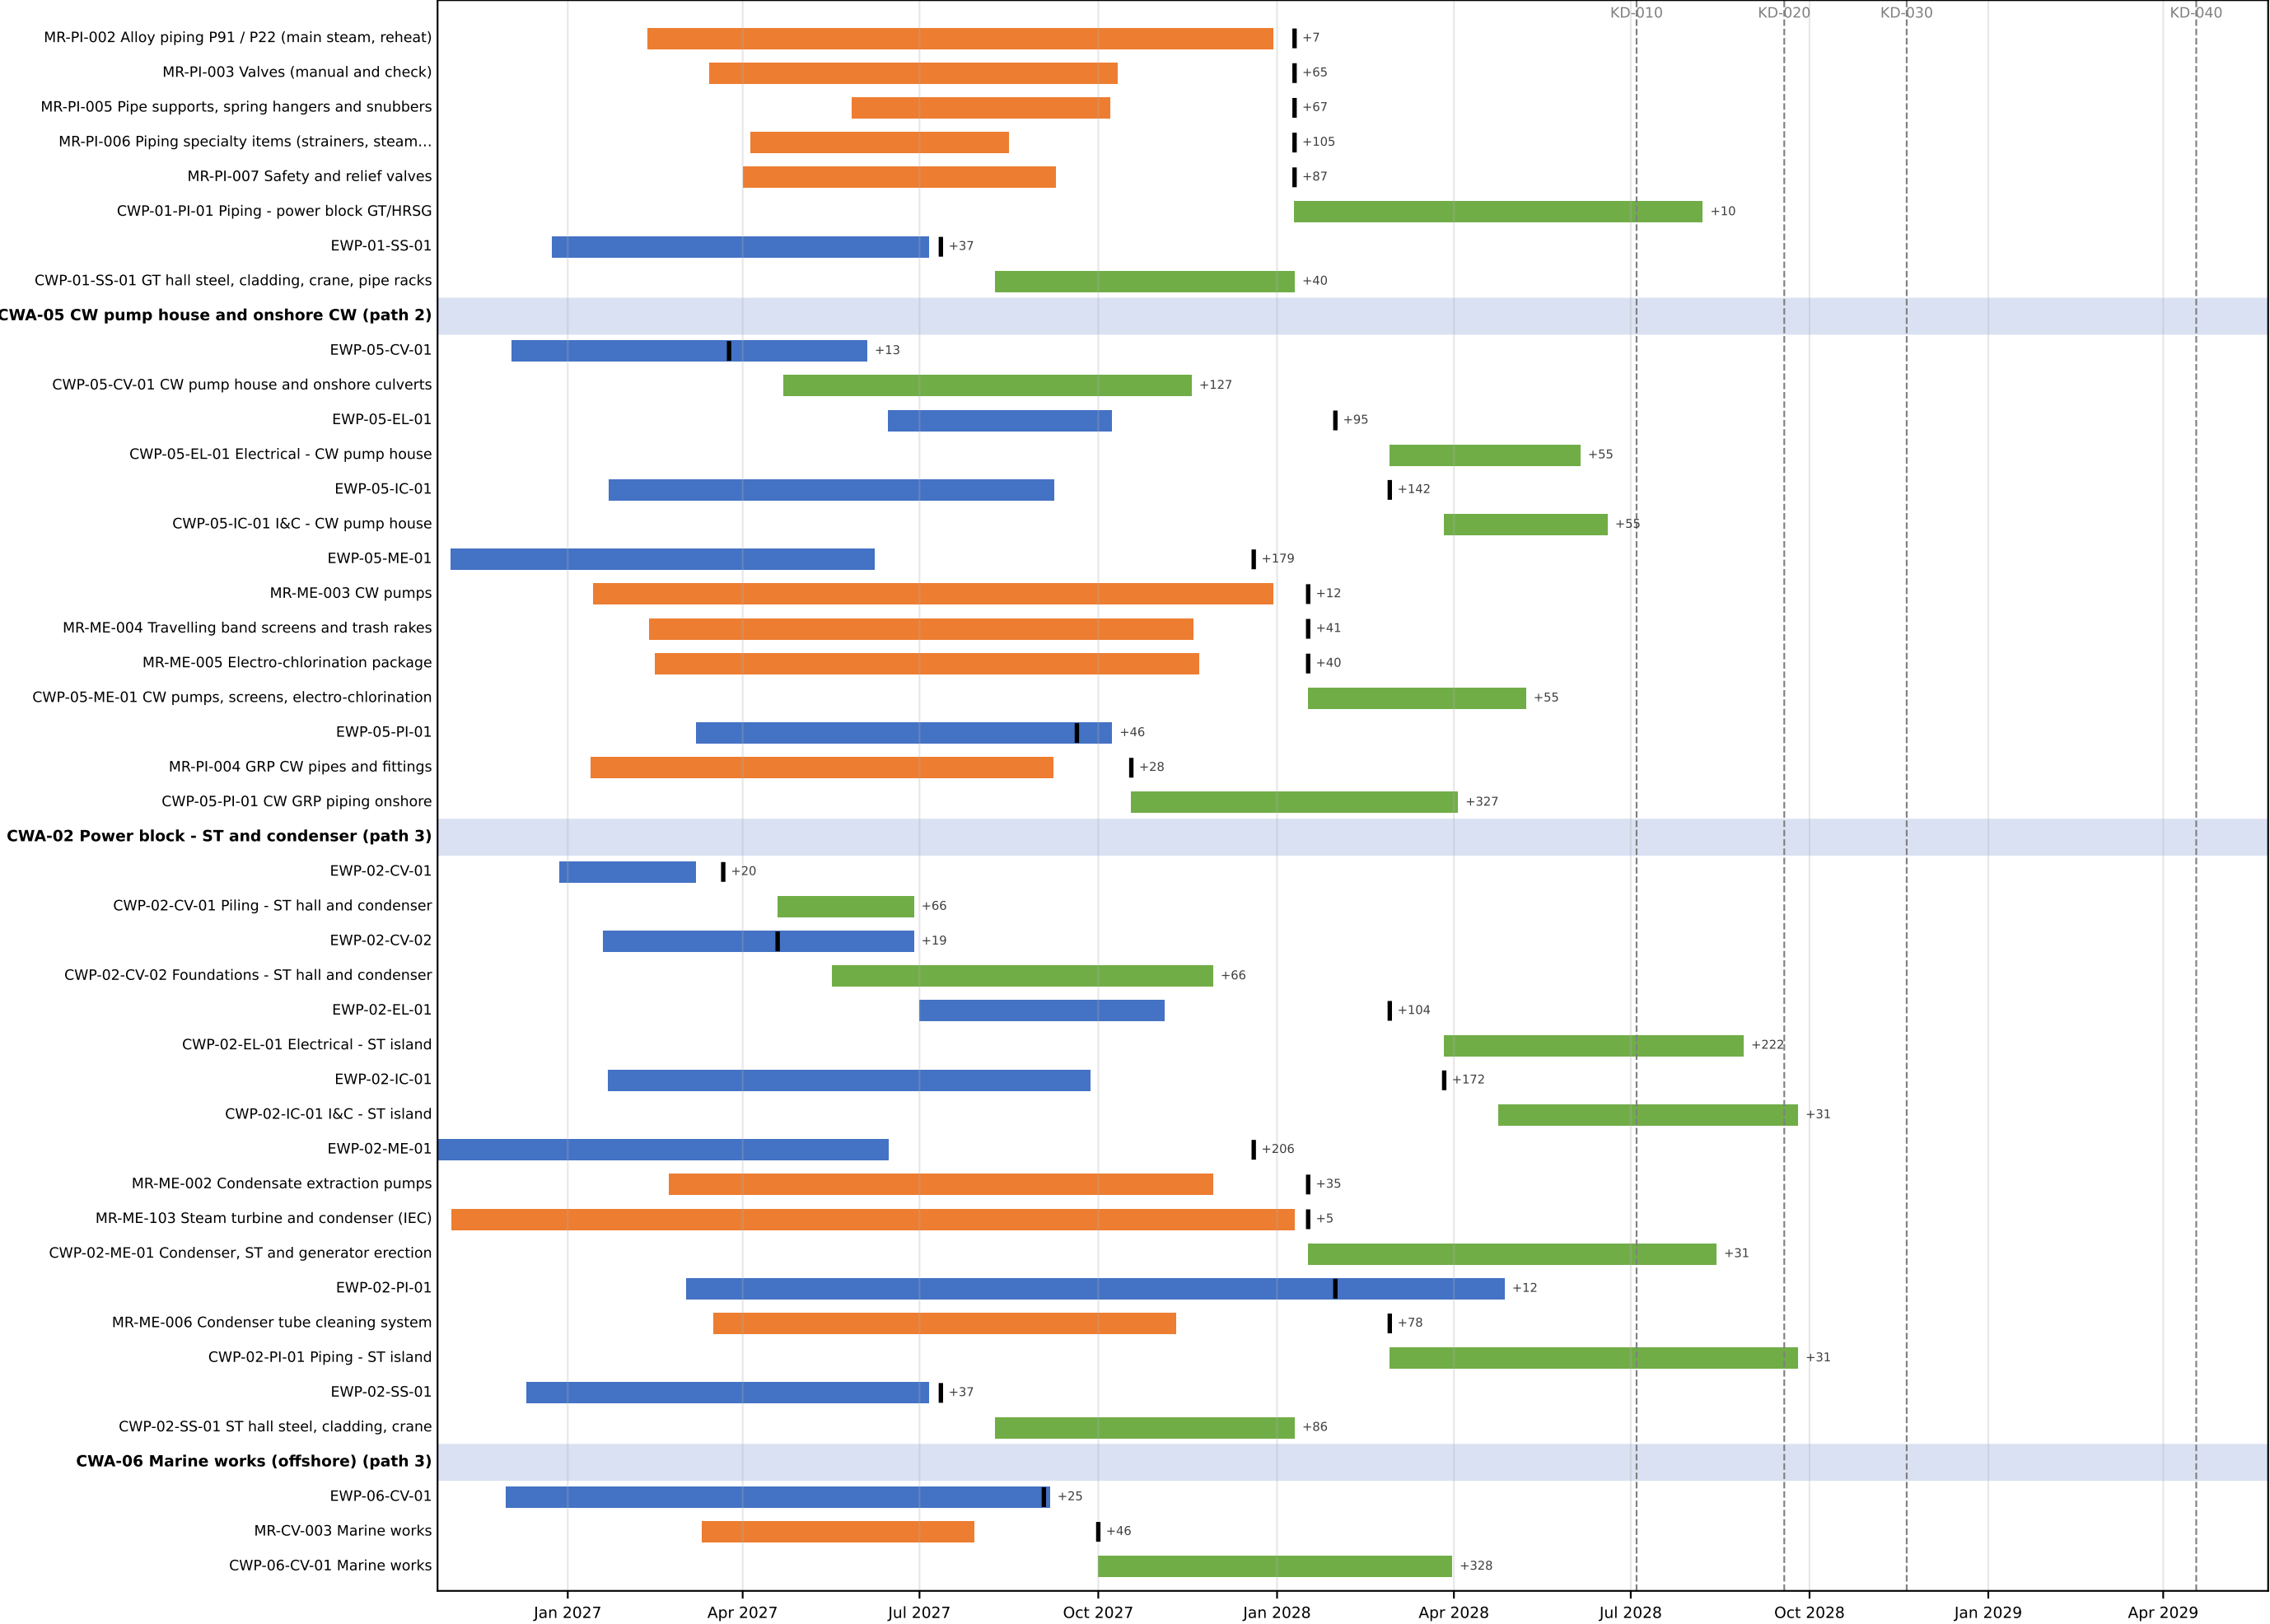

Documents reaching IFC per month

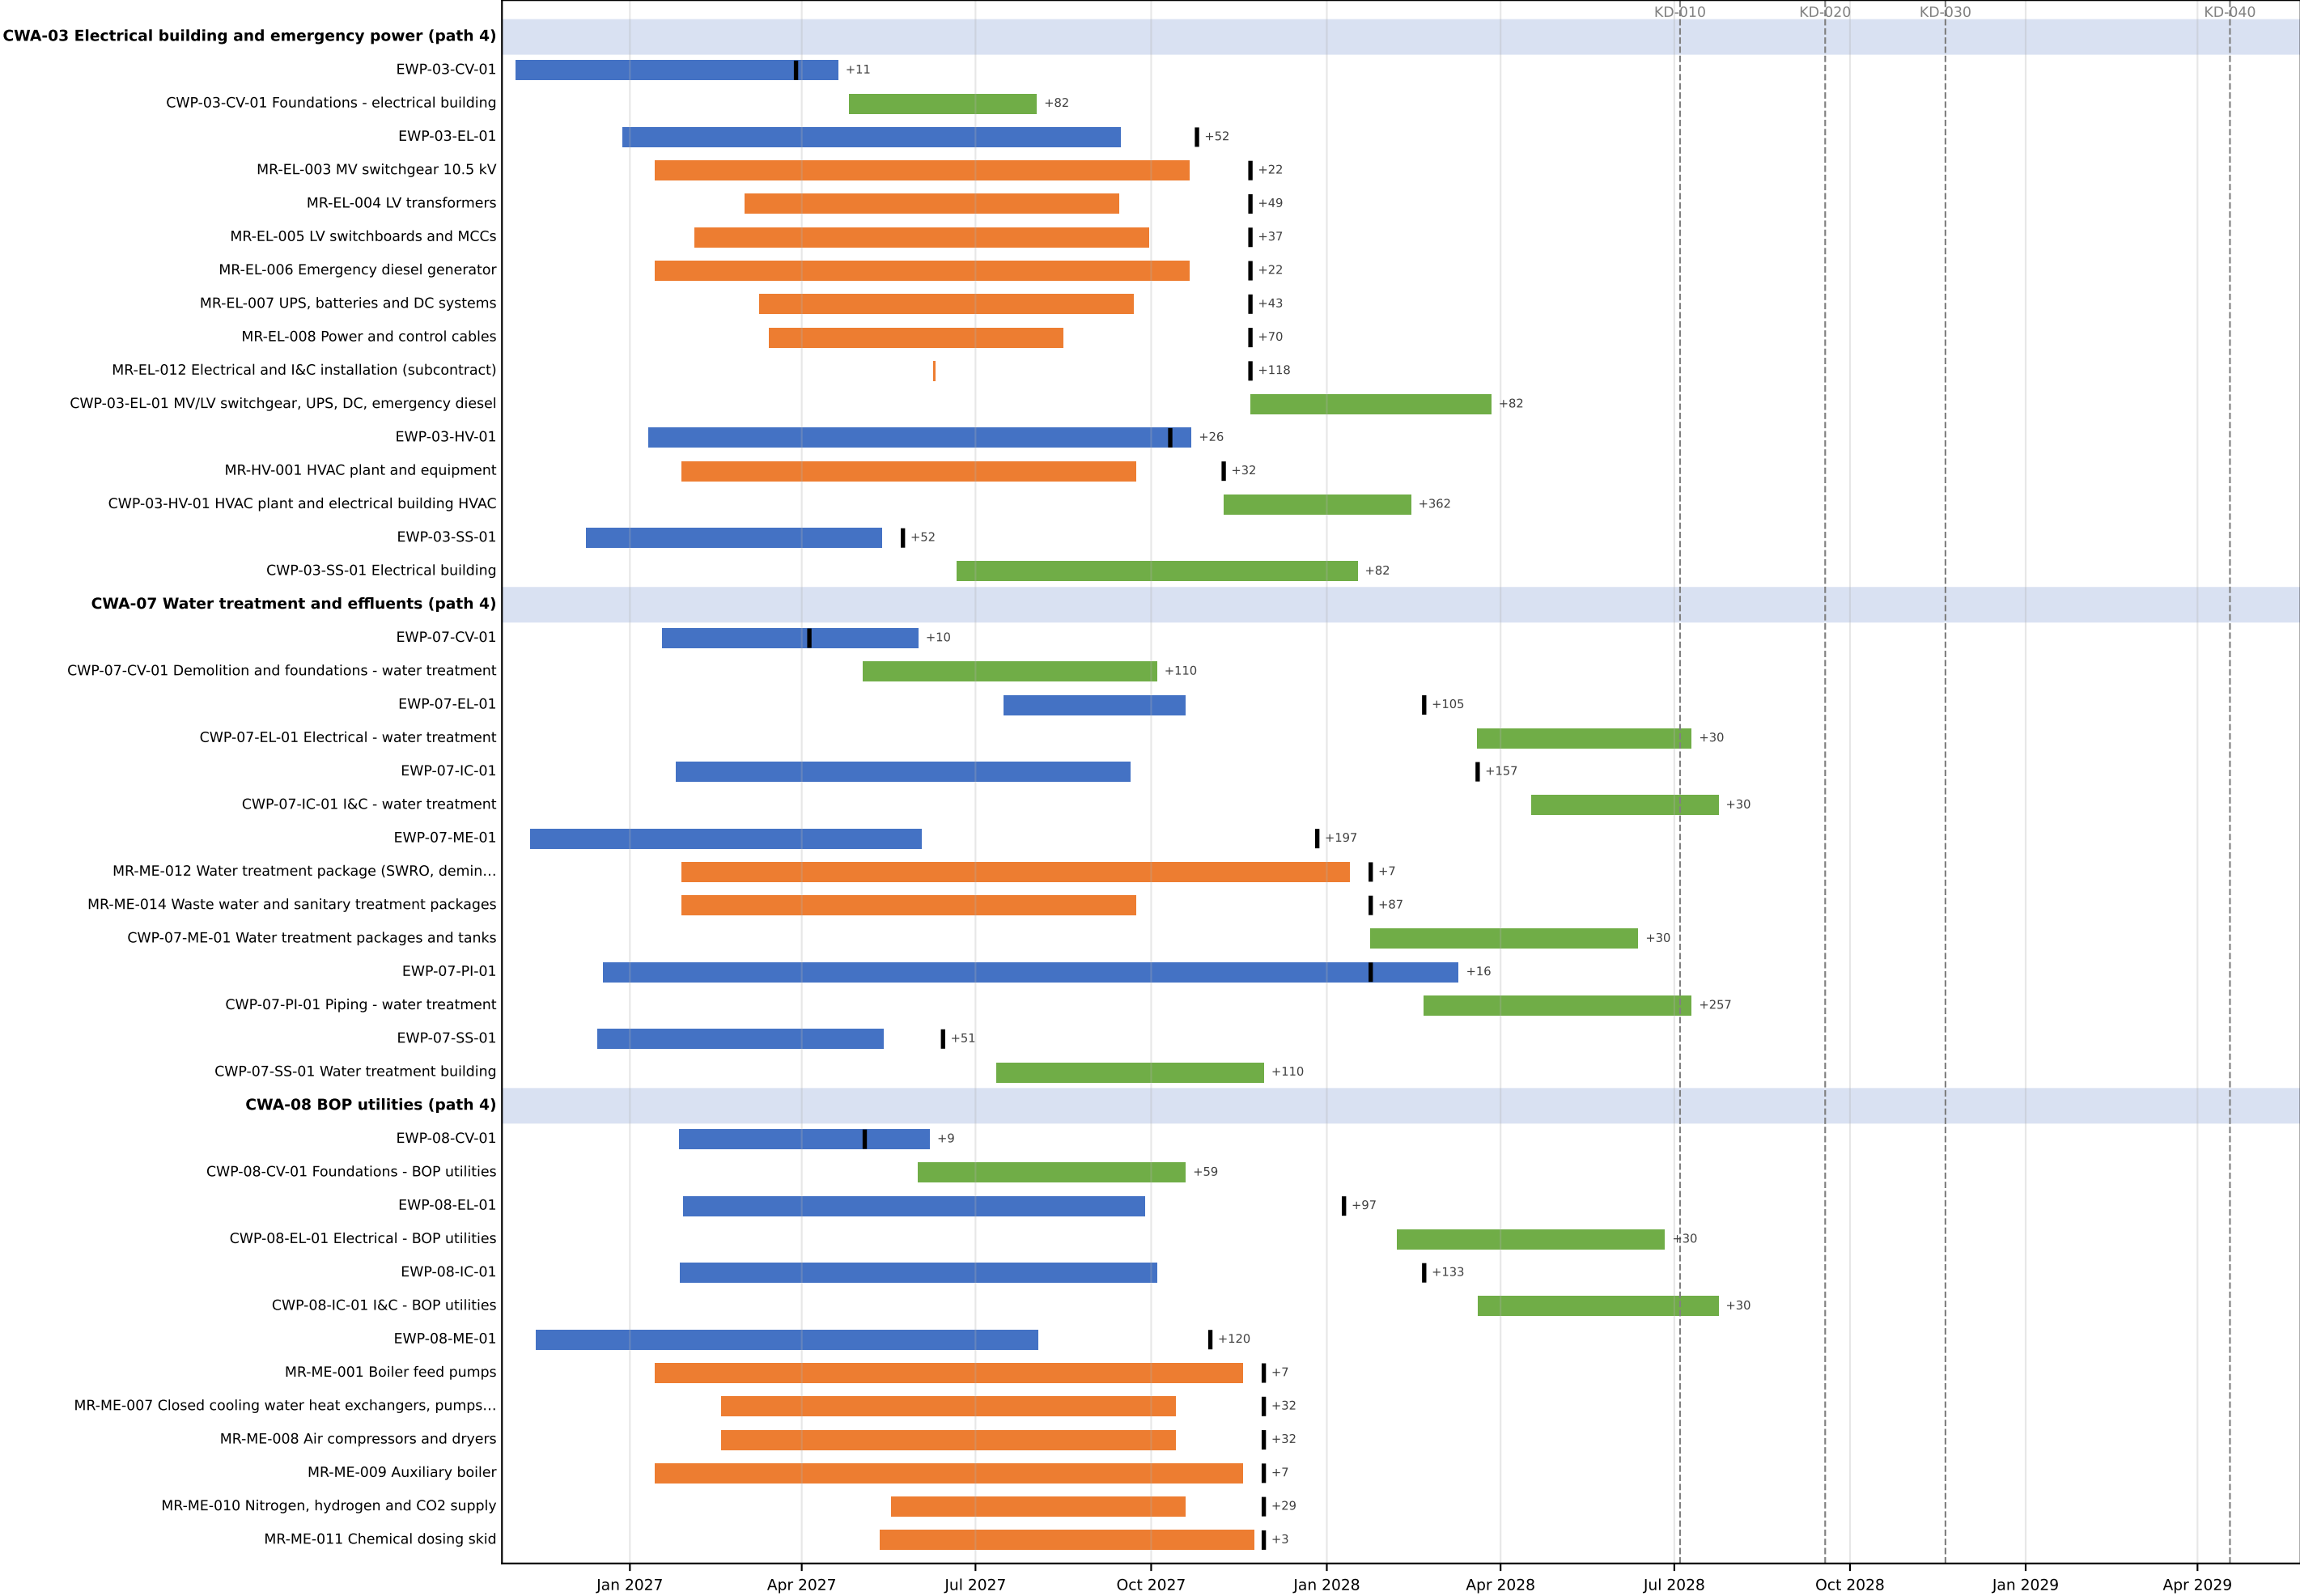

AWP timeline - EWP (blue: first document start to all IFC), PWP (orange: PO to on site), CWP (green: CPM)
| = first need (EWP: CWP start - lead; progressive documents later); numbers = float in working days (EWP: smallest document float); red = late [page 2]

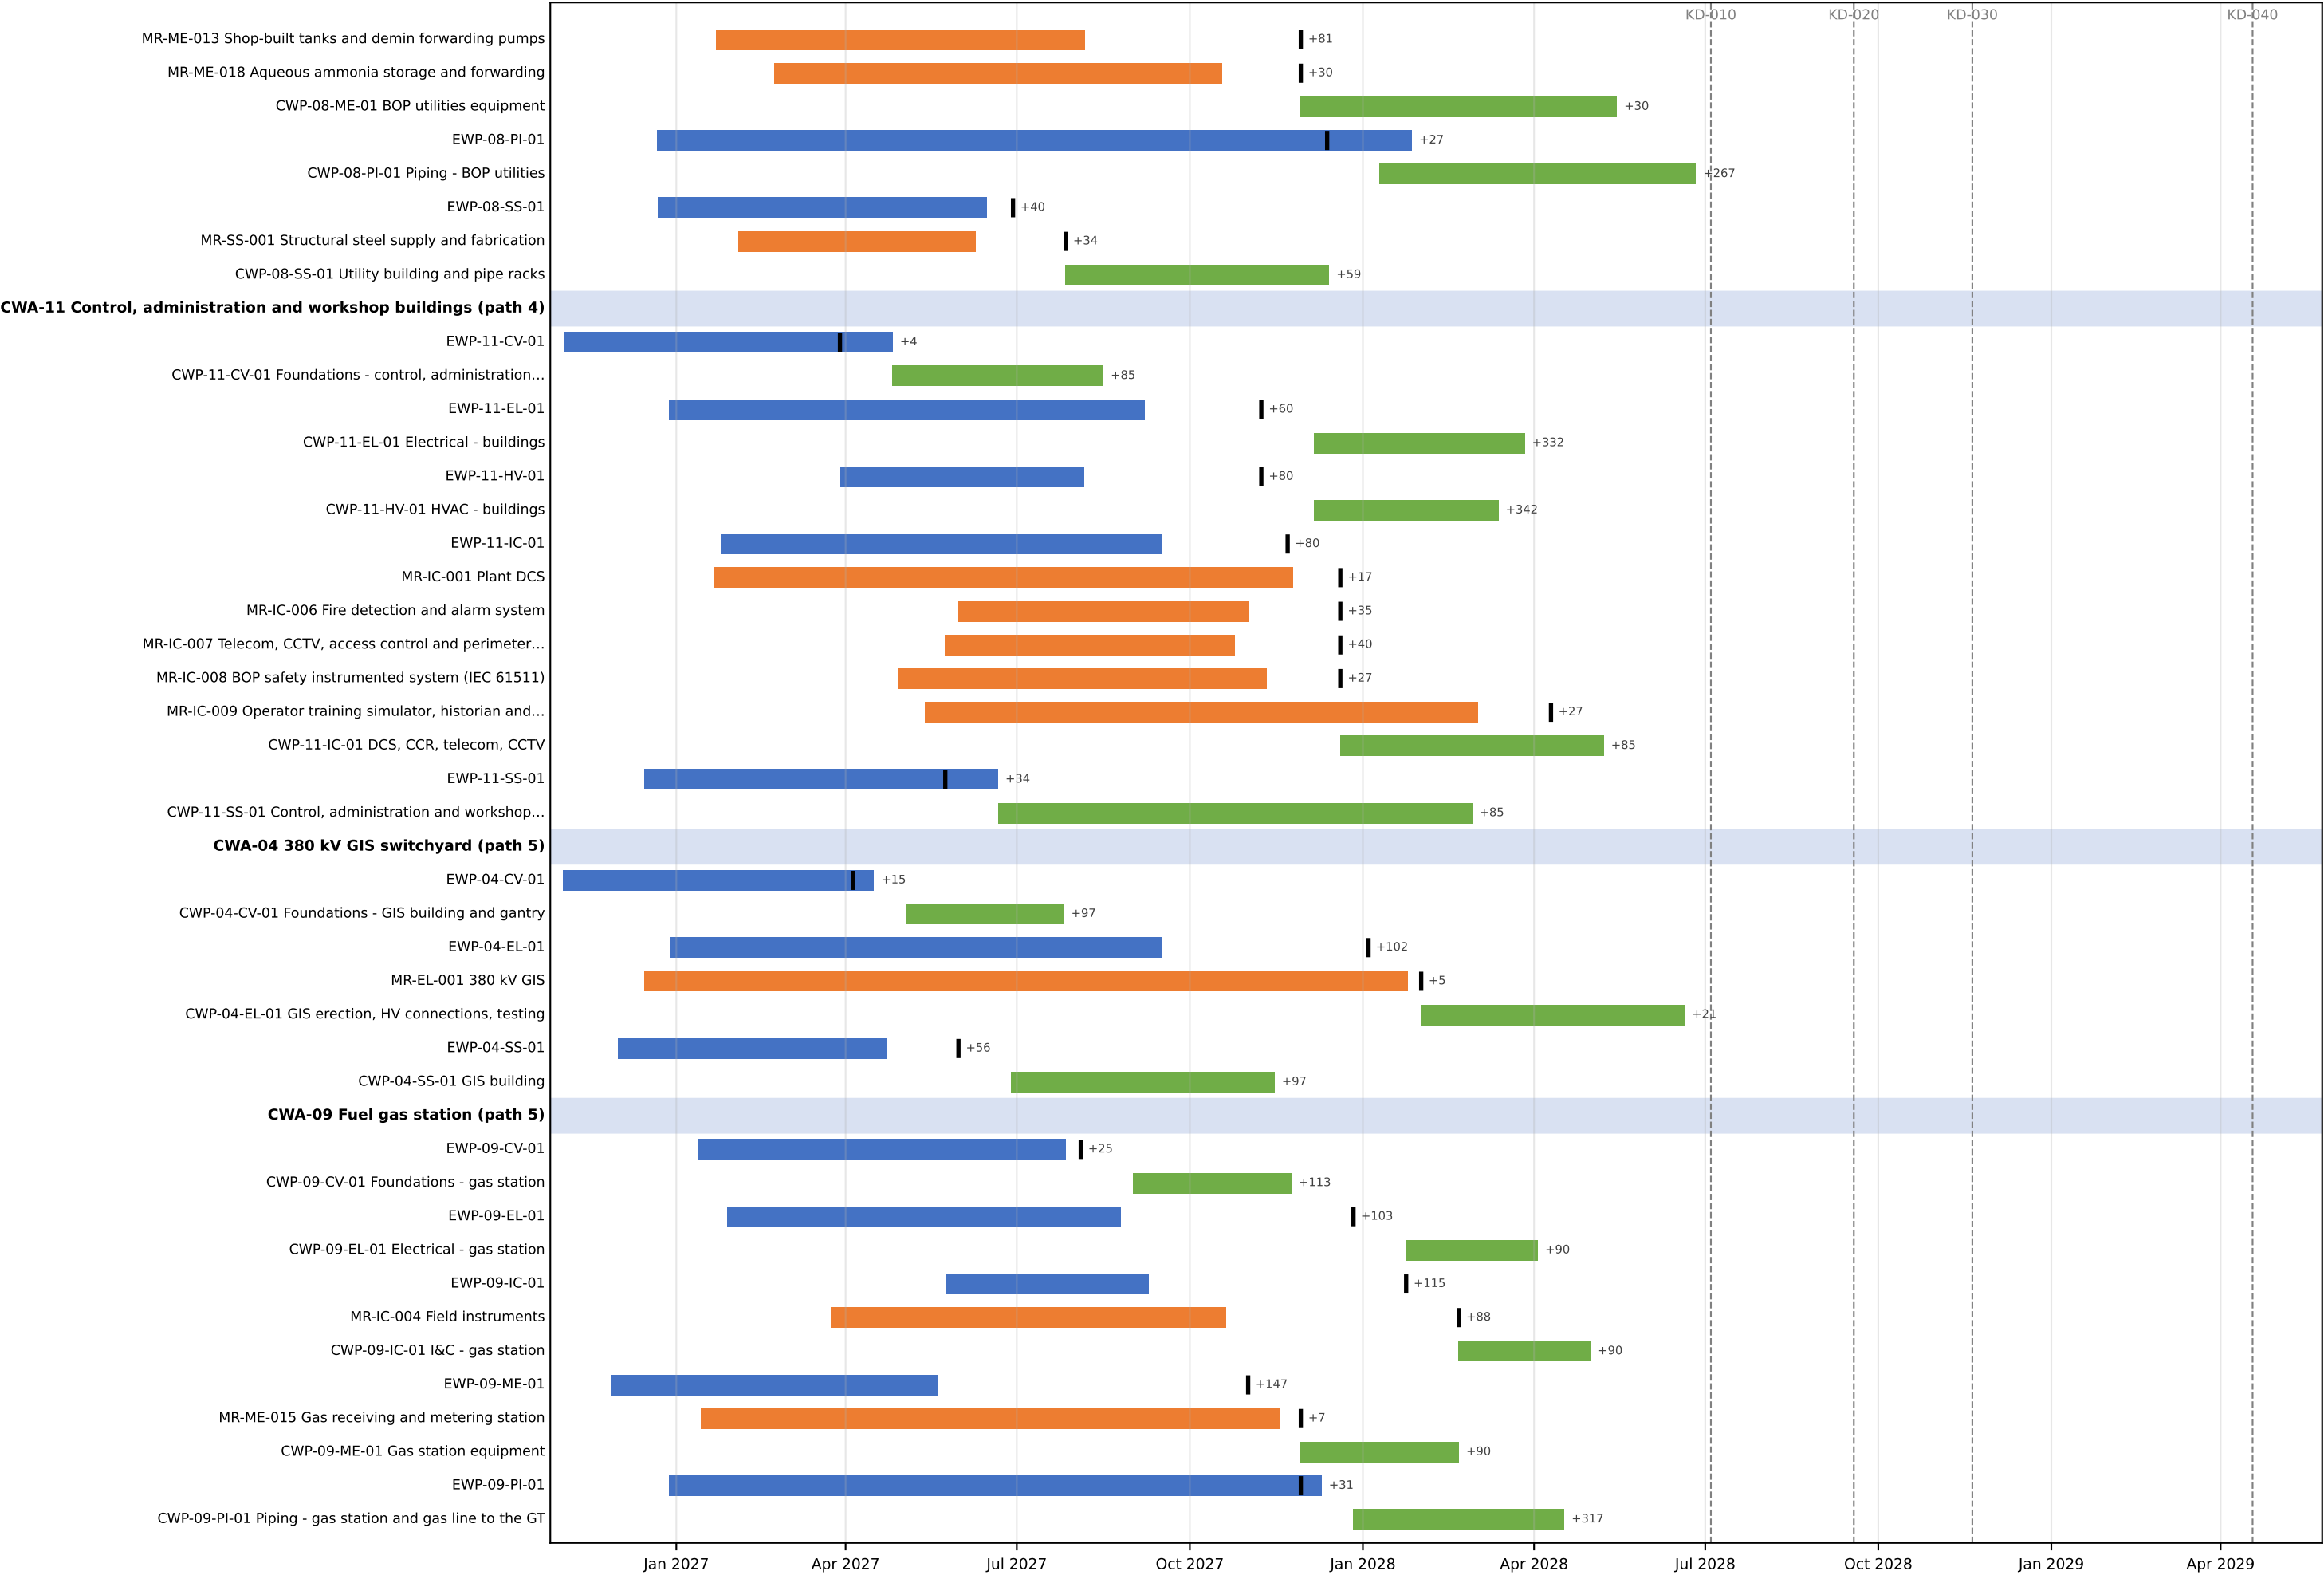

AWP timeline - EWP (blue: first document start to all IFC), PWP (orange: PO to on site), CWP (green: CPM)
| = first need (EWP: CWP start - lead; progressive documents later); numbers = float in working days (EWP: smallest document float); red = late [page 3]

AWP timeline - EWP (blue: first document start to all IFC), PWP (orange: PO to on site), CWP (green: CPM)
| = first need (EWP: CWP start - lead; progressive documents later); numbers = float in working days (EWP: smallest document float); red = late [page 4]

AWP timeline - EWP (blue: first document start to all IFC), PWP (orange: PO to on site), CWP (green: CPM)
| = first need (EWP: CWP start - lead; progressive documents later); numbers = float in working days (EWP: smallest document float); red = late [page 5]
